

Inclusive Scheme Platform - UI Design Overview

1. Home Page

Clean welcome screen with simple language, scheme highlights, and access buttons.

2. Chatbot Interface

Conversational layout with voice mic button, message area, and reply section. Multilingual support toggle.

3. Scheme Filter Page

Filter schemes based on user type (Farmer, Student, Woman, etc.), scheme type, and eligibility.

4. Feedback/Grievance Tracker

Form to submit issues and a status tracker page with ticket ID.

5. Community Help Tab

Forum where citizens post and discuss scheme experiences. Upvote and reply system included.

6. Accessibility Features

Font size control, text to speech toggle, voice only navigation, and color contrast switch.

7. Mobile First Layout

Fully responsive with priority to mobile UI for rural access.
